

MOU Q & A

Question	Answer	Date Updated
Will the MOU need to be resigned after including the IFA?	Yes, the inclusion of the IFA will require the MOU to be signed again.	4/2/2021
Can you provide any additional information or examples on what is expected with the Data Sharing Training Plan and Accessibility Plan?	This section of the MOU should detail how you will ensure all necessary staff are training on data sharing. How will training be provided (recorded session, live, etc.), who will provide the training, what records of training will be kept, etc. Also, previously developed physical accessibility transition plans can be found on the SWDB DAC website. https://www.iowawdb.gov/disability-access-transition-plans	4/2/2021
Have any required partners been waived from any local areas?	Required partners cannot be "waived" from the MOU. If the required partner program does not operate in a specific local area, that program will not be a party to the MOU in that area.	4/2/2021
If an organization is not providing employment and training (E&T) services under their Community Service Block Grant (CSBG) are they still required to participate in the MOU?	The Community Action Agencies (CAA) in your local areas are most likely the CSBG in your area. If they do not provide E&T services, they would not need to be a part of the MOU, however, it is the definition of "E&T services" that is important to make this determination.	4/2/2021
If a local area has multiple IowaWORKS center or offices with multiple partners for certain programs, do all partners have to sign the MOU?	Yes	4/2/2021

<p>I cannot locate the Housing and Urban Development (HUD) partner in my local area, is this a required partner program?</p>	<p>Under the law, HUD E&T programs are a required partner to the MOU. However, the DOL Region 5 office recently clarified that there are no HUD E&T programs operating in Iowa, therefore, none of the local areas will have HUD E&T as a required partner program to their MOU.</p>	<p>4/6/2021</p>
