

Midwest Diesel Tech Academy

Sioux City, Iowa

- 9-Month Program Starts in September
- Low-Cost Training & Tool Programs
- Attend Classes at our Training Facility
- Work as an Intern at one of our 5 Dealerships in Sioux City, Council Bluffs, Des Moines, Norfolk & Lincoln
- Earn While You Learn & Invest in Your Future!

Program Training Modules Overview

1. SAFETY & INTRODUCTION TO INDUSTRY

Covers shop maintenance related to safety, PPE equipment, first aid, hand and power tool safety, fire prevention, OSHA shop safety procedures, hazmat, hazardous communications, and shop management practices.

2. EQUIPMENT SERVICE

Instruction in the service and inspection of equipment related to the trucking industry. This includes DOT and PMI inspections, oil and filter service, transmission and drive axle service, and suspension service.

3. HEAVY DUTY ELECTRICAL

This training is an introduction to the basic electricity and electronic principles that apply to diesel-powered equipment. Systems and components covered include: starting, charging, lighting, wiring, instrumentation, DVOM operation, 12- and 24-volt systems and accessories.

4. AIR SYSTEMS AND BRAKES

Covers the operation and repair of the complete air system and brakes including troubleshooting and repair of air systems, foundation brakes, valving, compressors, antilock, traction control and stability management systems used on trucks and trailers. The regulation of the air brake safety standards set by the DOT is included.

5. HEATING AND AIR CONDITIONING

A course on basic heating and air conditioning theory and design. Emphasis will be placed on various system controls, service operations, troubleshooting and repair.

MIDWEST DIESEL TECH ACADEMY

6. DIESEL ENGINES AND FUEL SYSTEMS

This course begins with diesel engine construction, design and theory. Included are disassembly, inspection, measuring and reassembly of the engine and its components. Special attention will be given to diesel engine systems troubleshooting, parts failure analysis, and fuel systems.

7. INTERNSHIPS

Work as an entry-level technician in a Midwest Peterbilt Group shop. Trainee will apply information learned in conjunction with training modules at the Midwest Diesel Tech Academy, and have the opportunity to experience the diesel repair industry from the inside as an intern. Trainee will be supervised by a lead technician and shop manager at the shop location. Trainee will complete 22 weeks (820 hours) of internship during their training program with proper documentation and weekly evaluation. You will "Earn While You Learn" during the internship.

8. ELECTRONICS SYSTEMS AND CONTROLS

This course explains the components and controls of electronic-controlled diesel engines, and the study of electronic control modules (ECM), sensors, and electronic unit injectors (EUI). This course concentrates on theory, troubleshooting, repair and parameter changes of electronic-controlled systems.

9. SUSPENSION SYSTEMS

This course is designed to provide the necessary knowledge required to be able to identify, service, troubleshoot, remove, disassemble, inspect, reassemble and install steering assemblies and suspensions. Lubrication, manual and remote controls for tag/lift axles, frame repair, cab suspension, failure analysis and parts evaluation are included.

10. TRANSMISSIONS

This course is designed to provide the necessary knowledge required to be able to identify, service, troubleshoot, remove, disassemble, inspect, reassemble and install manual, automated and automatic transmissions. Lubrication, clutch operation and adjustment, transmission and clutch failure analysis, air and electric systems, and parts evaluation are included.

11. DRIVE TRAINS

This course is designed to provide the necessary knowledge required to be able to identify, service, troubleshoot, remove, disassemble, inspect, reassemble and install rear axle assemblies, drive lines, drive shafts, hanger bearings and u-joints. Lubrication, drive line angles, failure analysis and parts evaluation are included.

12. HYDRAULICS

The study of basic mobile hydraulics, vehicle hydraulic brake and steering systems. Introduces principles, components, fluid systems and circuits of hydraulic systems. This course provides the student with a basic understanding of fluid power as used in construction, agriculture, and in the trucking industry.

13. WELDING

Skills will be developed in oxy-acetylene flame-cutting and brazing, and shielded metal arc welding. Safety is emphasized, and basic welding theory and machine setup is discussed. Safety standards in welding high-strength steels will be stressed (body and chassis, etc.).

14. CDL LICENSE

This instruction covers the knowledge needed to complete and pass the DOT license requirements for a class "B" commercial driver's license. Candidates must pass three (3) written DOT tests and have acquired a CDL learner's permit for a minimum of 14 days before the candidate can complete the three (3) required skill tests in a truck.

Learn more about Midwest Peterbilt Group at pbtruck.com

Eligible Training Provider List - Provider & Program Application

This is an application for initial eligibility approval to participate as an Eligible Training Provider under the Workforce Innovation and Opportunity Act (WIOA) of 2014. Approval as a WIOA Eligible Training Provider does not represent an endorsement or accreditation of the programs offered by the Eligible Training Provider.

In accordance with 20 C.F.R. § 680.450, all providers and programs that have not previously been eligible to provide training services under WIOA sec. 122 or WIA sec. 122, except for registered apprenticeship programs, must submit required information to be considered for initial eligibility. If approved, the initial eligibility period is one (1) year for a particular program. To remain on the ETPL, 20 C.F.R. § 680.460 requires continued eligibility to be determined for each provider and program at the end of the initial eligibility period and then every two (2) years thereafter. Continued eligibility will be determined using the performance accountability measures described in WIOA secs. 116(b)(2)(A)(i)(I)-(IV), other matters required by WIOA sec. 122(b)(2), and other appropriate measures of performance as determined by the Governor for WIOA-funded program participants, taking into consideration the characteristics of the population served and relevant economic conditions. Please note – the provisions in WIOA secs. 116 and 122 and 20 C.F.R. § 677.230 and § 680.400 - § 680.530 that require the collection and reporting of performance related data on all participants in training programs on the State's ETPL have been waived through June 30, 2020; however, during this waiver period, the U.S. Department of Labor has mandated that the State must continue to collect and report performance related data for all WIOA-funded participants in accordance with all statutory and regulatory requirements, including WIOA secs. 116 and 122, and as specified at 20 C.F.R. § 677.230 and § 680.460.

INSTRUCTIONS: After completing and signing the application form below, training providers should submit it to their closest IowaWORKS Center with attention to the Local Workforce Development Board. Addresses for IowaWORKS Centers can be found at <http://www.iowaworkforcedevelopment.gov/locations>. If this application is approved by the Local Workforce Development Board, the training provider will be contacted by a representative from Iowa Workforce Development with further instructions on creating an account and adding this training program to the IowaWORKS data management system at <http://www.iowaworks.gov> in order for it to be placed on the Iowa Eligible Training Provider List.

*Date Edu. Program First Offered:	9/23/2019
*Please provide a reasonable explanation regarding why this is a new program:	There isn't a technical school in this area to train students in becoming qualified diesel technicians. Our program educates students in theory, industry standards, technical skills (internship), safety, and required related skills.
Minimum Class Size	2 Students
Maximum Class Size	10 Students
Number of Instructors	One
Describe the qualifications of all instructors in 800 characters or less:	AAS degree in Diesel Technology and AAS degree in Business Management. Our instructor held an Iowa teaching license for 25 years. He has 13 years experience in the diesel repair industry and 25 years teaching diesel technology at the Community College level.
Describe the minimum entry level requirements or prerequisites in 800 characters or less:	Read, write, speak and understand English, understand and complete verbal instructions, basic understanding of metric and American standard measurements, basic math skills, and have dexterity in both arms and legs to be able to climb on vehicles to repair. Be able to lift 50 pounds or more, be able to bend, squat, and kneel while working in the shop, on equipment, and classroom training.
Drug/Alcohol Screening Required:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Accessibility:	<input checked="" type="checkbox"/> On-Site Parking <input checked="" type="checkbox"/> Public Transportation <input checked="" type="checkbox"/> Disabled Student Access <input type="checkbox"/> Sign Language <input type="checkbox"/> Other Languages <input type="checkbox"/> Other
Describe any equipment used in this program and its adequacy and availability in 800 characters or less:	Hand tools, battery and air powered power tools, computers for diagnostics, battery chargers, welders, A/C refrigeration machines, precision measuring tools, specialty tools for engines and transmission repair, power washers, and parts washers.
*Grievance Procedure:	Midwest Diesel Tech Academy has an open door policy. Any grievances or issues can be brought to the instructor or the Human Resources Manager for Sioux City Trade
